

# ENERGY CONSERVATION DAY-2025

National Energy Conservation Day is observed annually in India on **December 14th** to highlight the importance of energy conservation and promote awareness about efficient energy use. The day is celebrated under the guidance of the Bureau of Energy Efficiency (BEE), which operates under the Ministry of Power, Government of India.

The objectives of Energy Conservation Day:

- Promoting energy-efficient technologies.
- Reducing carbon footprints.
- Increasing the use of renewable energy sources.
- Raising awareness among individuals, businesses, and industries about energy conservation practices.

You can contribute to energy conservation by:

- Switching off lights and appliances when not in use.
- Using energy-efficient appliances.
- Reducing the use of non-renewable energy and opting for solar or wind energy.
- Carpooling or using public transportation.

Energy conservation is crucial for:

- Ensuring sustainable development.
- Reducing greenhouse gas emissions.
- Mitigating the effects of climate change.
- Preserving resources for future generations.

By celebrating National Energy Conservation Day, we reaffirm our commitment to a greener, more sustainable future.
